Muhammad Brillian Syifa Qolbi

Indonesia | (62) 813-2345-2095 | brillian354@gmail.com

SUMMARY

Bachelors' Degree in Computer Science from University of Singaperbangsa Karawang, Indonesia. 2 years of full stack development and data science including AI/ML model development, training, and deployment.

EXPERIENCES

Full Stack Developer – Contract | *Elice* **Oct 2025 – Present**

- Engineering the frontend for Creator AI, an AI-powered platform that lets creators and educators generate full slide decks, documents, and multimedia content from prompts. Built the end-to-end creation flow including multi-step wizards, live slide and code editor, generation job tracking with real-time status, and client-side export to PDF and PPTX, all in a Next.js 16 App Router architecture with a shadcn/ui design system and TansTack Query for data fetching and state management.
- Developed an AI interview practice platform (job + university admission preparation) serving students and teachers through a FastAPI backend combining RAG-based question retrieval, GPT-4o scoring/evaluation, Whisper speech-to-text, and a PostgreSQL background job queue, delivering scored sessions with structured AI feedback and PDF performance reports.
- Scope of work: Frontend Development • UI/UX Implementation • Design System (shadcn/ui + Radix) • State Management • API Integration • Testing • Database Design & Migrations (PostgreSQL & Alembic) • Authentication & Authorization (JWT)
- Tech Stack: Node.js • Next.js • TanStack Query • Playwright • Vitest • FastAPI • SQLAlchemy • Langfuse • Grafana • Docker

Lead Full Stack Developer – Bootcamp | *Elice* **Jul – Aug 2025**

- Led the end-to-end development of TeraVince, an AI-powered performance evaluation platform addressing bias and subjectivity in employee reviews for startups and NGOs. Delivered a fully functional MVP within 2 weeks.
- Scope of work: Frontend • Backend • Database • Deployment • System Integration • Team Coordination • Code Reviewing
- Tech Stack: Node.js • Vite • MERN Stack • Tailwind CSS • Google OAuth 2.0 • Elice AI • GitHub • AWS EC2 • Figma • Miro

Machine Learning – Intern | *Bangkit Academy, led by Google, Tokopedia, Gojek, & Traveloka* **Aug – Dec 2023**

- Responsible as a machine learning intern for building an image classification model. Collected and cleaned images dataset from duplicates, anomalies, and inconsistencies. Preprocess and ML model using CNN and Transfer Learning.
- Scope of work: Data Acquisition and Preprocessing • TensorFlow • Model Training • Hyperparameter Tuning • Transfer Learning
- Tech Stack: Google Colaboratory • Google Workspace • Google Cloud Platform • Python • TensorFlow • Pandas • NumPy

PROJECTS

PPG Digital Platform | *PPG Komisariat Karawang* **Oct 2024 – Present**

- Built, deployed, and monitor an integrated digital platform for an Islamic Educational Institution
- System Built: IAM single sign-on (OAuth 2.0 + PKCE, policy-based access), academic system (200+ teachers, 1000+ students), competition information system, digital library, marriage-registration service, and SEO optimized landing page.
- Tech Stack: Node.js • Next.js 16 • React 19 • TypeScript • MongoDB • FastAPI • PostgreSQL • Firebase • Vercel • Nginx

Automated Financing System | *Milemium Prisma Utama* **Aug 2025 – Dec 2025**

- Developed and maintained automation scripts for billing, notifications, payment validation, and financial records, significantly reducing manual work and minimizing billing errors.
- Scope of work: Google Apps Script • MikroTik scripts • Backend Integration with Telegram and third-party services
- Tech Stack: Google Apps Script • MikroTik Scripting • Telegram Bot API • REST API • Fonnte API • Biznet Gio Cloud.

TeraVince | *Elice* **Jul – Aug 2025**

- Built a full-stack AI-driven platform with **Node.js** and React to improve objectivity in employee performance evaluations for NGOs, replacing subjective reviews with role-specific KPIs, real-time dashboards, and anonymous 360° feedback.

EDUCATION

University of Singaperbangsa Karawang **Aug 2021 – Jan 2025**
Bachelor of Computer Science Honor Graduate, GPA: 3.61/4.0

Language: Bahasa Indonesia (Native) • English (IELTS Band 7.0)

CERTTIFICATES

Korean-ASEAN Digital Academy Phase 1 • The MERN Fullstack (Udemy) • Digital Entrepreneurship Academy (Digitalent) • Machine Learning Specialization (Coursera) • TensorFlow Developer Specialization (Coursera) • TensorFlow Data & Deployment Specialization (Coursera) • Google Data Analytics Specialization (Coursera) • Belajar Analisis Data dengan Python (Dicoding)
